LinkedIn | GitHub | Portfolio

Professional Summary

Computer Science and Engineering graduate focused on full-stack web development, with hands-on experience building and deploying responsive web applications using JavaScript, TypeScript, React, Next.js, Node.js, and Express.js. Experienced in developing REST APIs, implementing authentication, integrating databases, and building user-friendly interfaces. Familiar with AI-assisted development workflows for code exploration, debugging, problem-solving, and development productivity. Seeking a junior software engineering role to contribute to real-world products and continue growing as a developer.

Technical Skills

Languages: JavaScript, TypeScript, SQL
Frontend: React, Next.js
Backend: Node.js, Express.js, NestJS, REST APIs
Databases: MongoDB, PostgreSQL, SQL
Authentication: Firebase Authentication, JWT, Better Auth
AI-Assisted Development: AI-supported code generation, debugging assistance, code explanation, problem-solving, and developer productivity workflows
Tools: Git, GitHub, Axios

Projects

Doctor Appointment Manager Live Demo | GitHub

Next.js, Node.js, Express.js, MongoDB, Tailwind CSS, Firebase Authentication, JWT, Axios

- Built a full-stack doctor appointment platform where users can browse and search doctors by name and specialty, then book and manage appointments.
- Developed RESTful backend APIs using Node.js and Express.js, integrated MongoDB for data persistence, and used Axios for client-server communication.
- Implemented email/password and Google authentication with Firebase, alongside JWT-based authorization for protected backend routes.
- Developed a personal dashboard for managing appointments and profile information, including booking, updating, and cancelling appointments.

SunCart – Summer Essentials Store Live Demo | GitHub

Next.js, Tailwind CSS, DaisyUI, Better Auth

- Developed a responsive eCommerce web application for browsing seasonal products, including clothing, sunglasses, skincare, and beach accessories.
- Implemented email/password and Google authentication with protected product details and user profile pages.
- Built responsive product listings, product details, promotional sections, and profile functionality for mobile, tablet, and desktop devices.

Education

University of Liberal Arts Bangladesh (ULAB) Dhaka, Bangladesh
Bachelor of Science in Computer Science and Engineering *2022 – present*
CGPA: 3.55/4.00

Rangpur Government College Rangpur, Bangladesh
Higher Secondary Certificate (HSC), Science *2020*
GPA: 5.00/5.00
